

Oncocyte Reports First Quarter 2023 Financial Results

May 11, 2023

Nearing Manufacturing Start Up of First Kitted Product

IRVINE, Calif., May 11, 2023 (GLOBE NEWSWIRE) -- [Oncocyte Corporation](#) (Nasdaq: OCX), a precision diagnostics company, today reported financial results for the first quarter 2023, ended March 31, 2023.

First Quarter 2023 and Recent Highlights:

- Completed an equity capital raise of \$13.86 million from the sale and issuance of common stock to strengthen the balance sheet and further support the Company's product portfolio.
- Implemented additional cost cutting initiatives to accelerate our transition to a capital-light business model based on commercializing kitted product versions of our novel diagnostic tests.
- Published a peer-reviewed article in *Clinical Cancer Research* on the results of a study applying DetermaIO™ to samples collected from the randomized Phase II AtezoTRIBE clinical trial in metastatic colorectal cancer.
- Presented five abstracts at the Annual Meeting of the American Association for Cancer Research.
 - Four explored the tumor microenvironment and its potential implications for therapeutic response, leveraging the expertise and technology behind DetermaIO.
 - One abstract highlighted exciting study results applying DetermaCNI to metastatic pancreatic cancer.
- Completed sale of 70% of ownership interest in Razor Genomics.

"In the first quarter we completed the major steps in committing the company to a kitted product driven commercial model," said Josh Riggs, CEO. "Our novel diagnostic tests have continued to generate compelling clinical data in studies that strongly suggest superiority to currently marketed diagnostic tests that generate hundreds of millions of dollars of revenue. And our development team is making rapid progress getting kitted versions of our tests to market. As a result of our new capital-light business plan, our strong clinical data, and our steady progress toward market, we raised \$13.86 million in April from the sale and issuance of our common stock to existing and new investors who share our long-term vision to create value for both patients and shareholders."

First Quarter 2023 Financial Results

Consolidated revenues for the three months ended March 31, 2023, were approximately \$0.7 million, a 50% decrease compared to the first quarter of 2022. Excluding DetermaRx revenue, the continuing operations revenue was \$0.3 million for the three months ended March 31, 2023.

Consolidated cost of revenues for the three months ended March 31, 2023, was approximately \$0.8 million, a 59% decrease compared from same period in 2022.

Net consolidated operating income for the three months ended March 31, 2023, was \$2.9 million, compared to consolidated operating loss of \$9.4 million, a change of \$12.3 million from the same period in the prior year.

Research and Development expenses for the first quarter of 2023 were \$2.8 million compared to \$5.1 million, a decrease of \$2.3 million from the same period a year ago. The decrease is primarily due to the decrease in CLIA laboratory expenses and clinical trial expenses in the three months ended March 31, 2023.

The General and Administrative expenses for the first quarter of 2023 were \$3.7 million compared to \$5.7 million from the same period in the prior year, a decrease of \$2.0 million.

Sales and Marketing expenses in the quarter were \$1.2 million compared to \$3.2 million from the same period in the prior year; a decrease of \$2.0 million year over year, primarily attributable to the decrease in product development and commercialization efforts of DetermaRx due to the sale of Razor Genomics during the first quarter of 2023.

For Oncocyte's complete financial results for the first quarter ended March 31, 2023, see the Company's Quarterly Form 10-Q to be filed with the Securities and Exchange Commission on May 12, 2023.
